Consumer Notes:

As we approach the end of this hot summer and gear up for the holiday buying season, rest assured that we're right here with you! The trend away from Laserdiscs and toward DVD continues this month, and it looks like we're going to have the actual releases getting closer to street dates now. If you enjoy Tenchi and El Hazard, check out Battle Athletes ... it's very much the same kind of show. The biggest news here, though, is the imminent release of Kiki's Delivery Service from Buena Vista ... the Miyazaki masterpiece (or rather, ONE of his masterpieces) is sure to sell tons (particularly with the advertising dollars which will certainly be spent)!

JEFF'S PICK(S) OF THE MONTH

With some minor reservations regarding the additional wall-to-wall music that was added to the US version, the hands down winner this month is **Kiki's Delivery Service**. One of the best things that Hayao Miyazaki ever did, this is fun and frequently remarkably introspective. A wonderful movie at a fair price ... what more could anyone ask for?
